

# Arnold Pompoš Ph.D.

---

Fermilab,  
MS 318  
Batavia, IL 60510

Phone: (630) 840-8410  
Fax: (630) 840-2968  
pompos@fnal.gov

## Top 10 Reasons to Hire Arnold to Academia - RESEARCH.

1. **Motivated:** I enjoy searching for new phenomena.
2. **Educated:** Received the best education. Ph.D. in high-energy physics from Purdue and M.S. in Theoretical Physics from Prague, Czech Republic.
3. **Experienced in Research:** Have done search for Supersymmetry at Fermilab.
4. **Member of CDF collaboration:** Helped to build and calibrate the Run II endplug calorimeter. Analyzed CDF's Run I data. Took Run II CO shifts. Started to work with the Run II software.
5. **Has clear goal to achieve:** To further contribute to Fermilab's effort in search for new phenomena.
6. **Speaks five languages:** A culturally literate translator always proves useful.
7. **Has good communication skills:** Able to communicate on wide spectrum of levels about scientific topics.
8. **Reliable:** Devoted to overcoming possible obstacles. Won't simply give up.
9. **Experienced with Mentoring:** Currently helping graduate student in search for the SUSY partner of the top quark.
- 10 **Enthusiastic with high energy level:** Gave numerous tours of Fermilab and of the CDF experiment to wide spectrum of visitors.
